The SHARE Curriculum is being developed and will be made available online. The curriculum aligns with national standards and objectives. Here is representative sample of the standards applied:

**National Health Education Standards**

Standard 1: Students will comprehend concepts related to health promotion and disease prevention to enhance health.

Standard 2: Students will analyze the influence of family, peers, culture, media, technology and other factors on health behaviors.

Standard 3: Students will demonstrate the ability to access valid information, products and services to enhance health.

Standard 4: Students will demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks.

**Healthy People 2020**

AH-2 Increase the proportion of adolescents who participate in extracurricular and out-of-school activities.

AH-3.2 Increase the proportion of parents who attend events and activities in which their adolescents participate.

**National Partnership for Action**

Goal 1: Awareness - Increase awareness of the significance of health disparities, their impact on the nation, and the actions necessary to improve health outcomes for racial, ethnic, and underserved populations.

Strategy 2: Partnerships: Develop and support partnerships among public, nonprofit, and private entities to provide a comprehensive infrastructure to increase awareness, drive action, and ensure accountability in efforts to end health disparities and achieve health equity across the lifespan.
