

Online Dataset Resources for Rehabilitation Researchers Available at www.disabilitystatistics.org

Rehabilitation Dataset Directory

The Rehabilitation Dataset Directory is designed to assist rehabilitation researchers identify potential secondary data sources. It provides basic information about large administrative and research datasets. Users can access dataset summaries including basic descriptions of each dataset and "full profile" views that provide a wealth of additional information including sample size, population, as well as data strengths and limitations. There are also links to more documentation and information on dataset access.

Rehabilitation Dataset Directory: Directory Search

The Rehabilitation Dataset Directory is designed to assist rehabilitation researchers identify potential secondary data sources. It provides basic information about large administrative and research datasets. Users can access dataset summaries including basic descriptions of each dataset and "full profile" views that provide a wealth of additional information including sample size, population, as well as data strengths and limitations. There are also links to more documentation and information on dataset access.

You can search for relevant datasets in **three different ways**:

Search Type 1: Search by Criteria

Use the expandable guided selection interface. Select one or more checkboxes and click the Submit button. (all datasets that include any of the criteria will be displayed.)

CLOSE ▾ Unit of Observation

Description: The most basic unit on which data is collected on (e.g., individual, facility).

- Geographic Area (e.g. County Level)
- Hospital/facility
- Individual/Patient
- Service Provider/Agency

OPEN ▾ Sponsoring Agency/Entity

OPEN ▾ Study Design

OPEN ▾ Sample Population

Search Type 2: Search by Dataset

Browse the list of data sources and read the dataset summaries or detailed full profile view. Select one or more checkboxes and click the Submit button.

American Hospital Association (AHA)

- (AHA) American Hospital Association

Centers for Disease Control and Prevention (CDC)

- (BRFSS) Behavioral Risk Factor Surveillance System
- (NAMCS) National Ambulatory Medical Care Survey
- (NHANES) National Health and Nutrition Examination Survey
- (NHIS) National Health Interview Survey
- (NHHCSS) National Home and Hospice Care Survey

Search Type 3: Full Text Search

Use the text search tool to search for the concept you are looking for (Note: some terms may not result in any hits. Don't give up! You may want to try the other interfaces, or contact our technical assistance for further suggestions)

Rehabilitation Research Cross-Dataset Variable Catalog

Browse or search for detailed variable level rehabilitation relevant information across 6 major datasets. The catalog provides: variable names, labels, survey questions, response categories and other related variables that can be exported into an excel spreadsheet for your use.

Note: this tool is designed to provide an overview of rehabilitation related information available across multiple datasets - always use the dataset's codebook/dictionary to guide actual analysis.

Search by Topic, Data Set, or Keyword

Keyword Search: Search
