Key User Assessment

1. What aspects of design and functionality of a web-based mapping platform would be useful for your organization?

2. Does your organization have the capacity to adopt a technology similar to what you've just described or the Tableau platform you've been using for this project?

    a. If NO – what would your organization need to do so?
    b. If YES – what steps need to be taken to make this happen?

3. If your organization were to adopt a technology of this sort, who do you see as the 'end user' group?

4. How likely is it that you would recommend a technology such as this to the decision-makers within your organization?

    a. Very unlikely
    b. Somewhat unlikely
    c. Neutral
    d. Somewhat likely
    e. Very likely

5. Is there a specific project you are currently working on or may develop into future work that would benefit from an interface similar to this?
